Ischs As we kick off Computer Science Education Week - today we focus on the Digital Media Track of our IST Department and the WEXPtv Media Program.
 La Salle offers the Adobe Creative Cloud to all students to produce digital content with five video production & graphic design electives as well as the #WEXPtv Media Program Extracurricular Activity.

We will be profiling alumni in the field and begin with Alex Subers '11 @asubers - current Photographer for the @sixers who got his start with 📷 at La Salle! #YourPathLSCHS

 La Salle College High School

Ischs Computer Science Education Week continues with a focus on our Freshmen Introduction to IST Course.

This course is a core element of the Academic Experience for all Freshmen.

Not only are students introduced to the technology fundamentals to be successful in the classroom at La Salle - they are also introduced to all elements of the 20+ IST Department electives through project-based assessments featuring design thinking, networking, programming, robotics, graphic design and video production modules during their freshmen year. Thanks to our IST Class recently about his path to Google. #YourPathLSCHS

Ischs Today's IST Department alumni profile for Computer Science Week is Chris Jastrzembki '14 who helped run our La Salle Sports Twitter and produced video content for #WEXPtv during his time at LSCHS.

Our Media Program allows for students to excel in and out of the classroom using Industry-Standard software such as Adobe Creative Cloud and students can earn @adobe certifications on campus through our partnership with @certiportcertified.

These students leave La Salle as leaders in the field in college and beyond - such as at ESPN!

Look for Chris's highlights on SportsCenter nightly! #YourPathLSCHS
